

# Up, Up and Away

## Frimley Learners

**Learning together and independently** – Working together and independently we will develop and practise dances to perform, demonstrating an aspect of space.

**Enthusiastic** – We will be exploring the work of a famous artist and creating our own piece of artwork based on his style.

**Ambitious** – We will be getting a taste of what life is like as an astronaut on board the International Space Station.

**Resilient** – We will be learning all about the space race and the history of the Apollo program.

**Naturally Curious** – We will be investigating different aspects of our solar system and exploring whether future generations could exist on other planets.

**Enterprising** – We will research all aspects of life on Pandora and work together to create our own planets. What will life be like there?

**Risk taking** – We will be designing, making and evaluating our own form of rockets. 3, 2, 1 ... will launch off be successful?

**Self-aware** – We will be looking at the environmental impact humans are having upon Earth and reflecting upon how we can make a difference environmentally.
