Year 3 Newsletter - Autumn Term Part 2

This half term, our topic has been **Midsummer Night's Dream.** We transformed our book corners into enchanted forests. We have really enjoyed the story, especially when Bottom turns into a donkey and Titania falls wildly in love with him. We made our very own potions, which ranged from love potions, freeze potions and even maths potions! We then worked hard on coming up with posters to sell our amazing products.

By Rebecca C

In **Maths,** we have been learning about multiplication and division. We have explored how the two are related and have used resources to help us when we are stuck!

We have also been working hard on our 3, 4 and 8 times tables. Feel free to test us!

By Tyler and Zachary M

In **Science** we have learnt about how objects move on different surfaces and why. We have also learnt how to set up fair test enquiries and carry out our own simple experiments. We have also been learning about magnets and how they are attracted to different materials. We learnt about their different poles and magnetic fields.

In **DT** we designed and made moving Fairies and Imps. We then put our knowledge into practice and made our very own magnetic toy. I enjoyed pushing and pulling my toy with the magnets.

By Abigail L and Isabelle M

In **RE**, we have looked at how the Bible reveals God's rescue plan and thought about 'rescue situations' in our own life. We have reflected on different biblical stories and explored a variety of bibles. We even read a comic version!

At the beginning of December a very mischievous Elf, Crackers, came to visit us. Father Christmas sent us an email to tell us all about him and to ask us to show him how to behave. He was so naughty that Father Christmas sent Mrs Wright an email apologising for his poor behaviour. We decided to make posters and behaviour charts to tell Crackers how he should behave. He then spent some time in Mrs Wright's office reflecting on his behaviour. We hope he has learnt his lesson!
