

# Year 4 Newsletter

## Super Start

We kicked off our topic, Journey into the Unknown, with our very own exhibition. We started off by planning which job we would have and we then went outside and used certain materials to make our own boats. After that we began our expedition where we discovered clues around the playground and fields. They revealed what happened when Shackleton and his men went to Antarctica. It was a great way to start our 'Journey into the Unknown'.

## RE

In RE, we made flexagons that showed the three parts of the Trinity. These are the Father, the Son and Holy Spirit. We have really enjoyed RE this term and we have done lots of artwork to show our understanding of Christianity.

## Maths

In maths we have been working on times tables and multiplication. We have re-visited grid method and we have also found ways to make some time-tables easier. For example for the 11 times table you can use your tens and ones to work them out. We have enjoyed maths this half term, especially Active Maths where we get to move around whilst still learning.

On the 14 December 2017 we took part in a year 4 Inter-house competition during our last PE lesson. The games were all about catching, receiving and finding space. We had to use lots of the skills we have learnt in PE like different movement patterns and communicating with the people on our teams.

There were some amazing matches and lots of them were really close. The closest of all was a game between Argo and Endurance which Argo one by just one point. There was lots of exciting play and excellent teamwork and everyone enjoyed the competition.

The final standings were:

- 1<sup>st</sup>. Argo
- 2<sup>nd</sup>. Apollo
- 3<sup>rd</sup>. Endeavour
- 4<sup>th</sup>. Endurance
