

# Battles of Time

## Frimley Learners

**Learning together and independently** – We will be getting to know our new class friends and exploring how we can work together efficiently and effectively.

**Enthusiastic** – We will be enthusiastic in science, investigating light and how conditions in air raid shelters were dark and dingy.

**Ambitious** – We will work ambitiously in maths to explore increasingly large numbers and place value in a range of investigations.

**Resilient** – We will be resilient in netball to improve our individual skills and show our best efforts in various team games.

**Naturally Curious** – We will endeavour to find about how the war started (D Day!).

**Enterprising** – We will be writing a battle cry to persuade an army to follow us into battle.

**Risk taking** – We will be taking risks and building our confidence in a drama workshop about the war.

**Self-aware** – We will be aware of others' situations and feelings by writing soliloquys as if we were a civilian during the war.
