

Frimley Church of England Junior School

Dear Parents/Carers,

Within the Science and PSHE (personal social health education) curriculum there is a mandatory requirement for schools to provide Relationships and Sex Education (RSE) from Reception to Year 6. RSE is learning about the emotional, social and physical aspects of growing up.

As a school we have decided to adopt the Christopher Winter Project as a method of teaching RSE across the school. The Christopher Winter Project provides a series of age appropriate lessons which will be delivered by a teacher that your child is familiar with. Below is a list of planned lesson objectives for your child's year group.

Year 4 planned lessons:

- To explore the human lifecycle
- To identify some facts about puberty
- To explore how puberty is linked to reproduction.

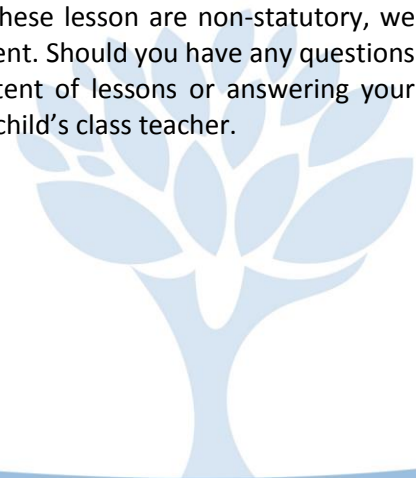

We are aware that this can uncover sensitive issues; in order to create a 'safe' environment for the children to learn we will set class rules and expectations for these lessons with the children, these will include rules similar to:

- No personal questions to be asked
- Show respect for the views of others
- Use appropriate language
- Only talk about what has been discussed in class with children of the same age or older.

We are confident that you will support your child during these teaching sessions, which will take place during week commencing the 20th May 2019. Although, these lessons are non-statutory, we believe they are beneficial for your child's learning and development. Should you have any questions or concerns regarding how the lessons will be taught, the content of lessons or answering your child's questions please do not hesitate to contact myself or your child's class teacher.

Yours sincerely

Anna Stroud
PSHE & RSE Lead
