

Year 3 Spring 2021 Homework

Activities will be set by your child's class teacher every **Tuesday**. It will be checked the following **Tuesday**.

Please support your child with their home-learning, if they are struggling with something, please write a note in your child's homework diary so that an adult can go through it with them at school.

Reading	TT Rockstars	SPaG	My Maths
<p>Read for at least 10-15 minutes, three times per week to an adult. Discuss what they have read and ask them questions about it.</p> <p>Please record any reading in your child's homework diary.</p>	<p>Complete the set Times Tables challenges here:</p> <p>https://play.ttrockstars.com/</p> <p>These will be set to support your child's recall of times tables. There is the function to turn off the timed aspect. Within the recall questions will also be inverse questions to show full understanding e.g.</p> <p>$2 \times 10 = 20$ $20 \div 2 = 10$</p> <p>Please ask your class teacher if you wish for your child to have any additional Times Tables added to their home learning (For example, if they are ready to learn their 9s).</p>	<p>Complete the set SPaG challenges here:</p> <p>https://www.spag.com/</p> <p>These will be questions based on a specific area of grammar taught that week at school. It will only be marked correct if it is spelt and punctuated correctly.</p>	<p>www.mymaths.co.uk is a fantastic website which Frimley has subscribed to. Your child has a username and password in their homework diary.</p> <p>My Maths is an optional homework resource for Year 3 children; there is no expectation for them to complete tasks, however tasks will be set if your child chooses to do more or they would like to practice further to embed the learning.</p>

Wider curriculum

If you would like to show your creative side, create your own piece of home learning about our theme. You can show your learning in any way you choose – be as creative as possible. This is not due weekly, instead we will display 'projects' and show them at the end of the half term (**Thursday 11th February 2021**) to celebrate learning.

Our theme for this half term is **'Discovery'**. Choose a few of the ideas below to demonstrate your understanding of what discovery means to you. *For example; you could write a story all about discovering new places or create a game that uses clues in order to discover the answers.*

Topic Homework

You could complete one, or more, of the following options or create something else to show what you have learnt about your topic.

Bring it to your *share my topic homework day* (ask your teacher for details)

make a model

create a piece of art work

make a game

write a story/poem/newspaper article etc

go on a visit

Read a book linked to your topic and review it

make a model

make a poster

plan and do an experiment linked to your topic

Learn a new skill

create an informative leaflet

make a fact file

design a costume

make a video

write some word problems for maths
